

## Announcement of a DAAD Alumni Expert Workshop

### “Prevention and Control of Non-Communicable Diseases (NCDs): Best Practice Examples and Ways Forward”

9<sup>th</sup> to 13<sup>th</sup> of October 2023, Heidelberg, Germany

---

Dear Colleagues, Dear Alumni of a German University,

It is our pleasure to announce a DAAD (German Academic Exchange Service) sponsored expert seminar entitled “**Prevention and Control of Non-Communicable Diseases (NCDs): Best Practice Examples and Ways Forward**”. It will be organized by Dr. Andreas Deckert, on behalf of the Heidelberg Institute of Global Health, Germany. We are looking forward to welcome **up to 17 participants from October 9<sup>th</sup> to October 13<sup>th</sup>**. Eligible are public health professionals or professionals of connected fields working in LMICs and dealing with the prevention/control of NCDs and who studied some time in Germany or participated in trainings in Germany (please send a scanned copy of your certificate of attendance or your certificate of study).

The aim of the workshop is to discuss **the latest evidences** on the prevention and control of NCDs which are among the leading causes of death and disability worldwide, including best practice examples from different settings. In particular, we hope to identify gaps and challenges in the prevention and control of NCDs and to discuss ways to address them, and share experiences and lessons learned from successful NCDs prevention and control programs and interventions. We invite the participants who can share best practice examples. Participants are expected to give a 30 minutes presentation followed by 15 minutes discussion during the workshop. Hence, we expect the applicants to write a short description of the project and presentation in the application form.

Please send us your expression of interest, using the page below, and include your motivation statement, at the latest by 31<sup>st</sup> of May. After the applications are reviewed, all selected candidates will receive a letter of invitation.

Participants will receive a return flight ticket (economy class), visa costs will be reimbursed, and your stay (accommodation and catering except dinner) is covered. However, we will not cover per diems or other allowances. Any additional costs beyond the course (residence, traveling or extended stays) have to be paid by yourself. We expect that all participants attend the full program from opening (Sunday evening 8<sup>th</sup> of October) to closure (Friday afternoon, 13<sup>th</sup> of October; departure on Saturday).

The workshop venue will be on Campus of the University of Heidelberg, details will follow after enrollment. We will organize the hotel and the flights for participation at the workshop. Public transportation (15 min drive) between the Hotel where the participants will be lodged and the workshop venue is available.

We are looking forward to your timely responses.

Kind regards,

Andreas Deckert
